EXPLANATORY NOTE

*(This note is not part of the Instrument and does not purport to be a legal interpretation.)*

These Regulations amend the European Communities (Good Agricultural Practice for Protection of Waters) Regulations 2006 (S.I. No. 378 of 2006) (generally known as “the Nitrates Regulations”) by providing for increased penalties and for prosecution on indictment of offences.

The 2006 Regulations provide statutory support for good agricultural practice to protect waters against pollution from agricultural sources and give further effect to the Nitrates Directive, which relates to the protection of waters against pollution from agricultural sources, and several other EU Directives relating to dangerous substances in water, waste management, protection of groundwater, public participation in policy development, and water policy (the Water Framework Directive).
