## EXPLANATORY NOTE

*(This note is not part of the Instrument and does not purport to be a legal interpretation.)*

Directive 2009/147/EC of the European Parliament and of the Council of 30 November 2009 on the conservation of wild birds provides for the conservation of wild birds by, among other things, classifying important ornithological sites as Special Protection Areas for them. The effect of these Regulations is to designate a site as a Special Protection Area in accordance with Article 4 of the Directive and to provide that contravention of the provisions of these Regulations shall constitute an offence.

Under Article 5 of the Directive all species of birds are afforded protection from disturbance, capture and damage to nests and eggs, not just the birds listed on Schedule 3 (with the exception of those birds covered under Articles 7 for hunting, and Article 9 where derogations are listed).

Please note that operations/activities other than those listed at Schedule 4 to these Regulations, such as effluent discharge, planning permission, aquaculture, fishing or forestry require a licence or permission from the appropriate consent authority.
